DETAILED ACTION

Drawings

The drawings were received on September 30, 2003. These drawings are acceptable.

Allowable Subject Matter

Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. Although the prior art teaches a variable focus liquid microlens, the prior art fails to teach a variable focus liquid microlens wherein the liquid drop is placed within a depression formed in a substrate wherein the depression has a curvature smaller than or opposite that to a circle tangent to the depression at any point contact between the drop and the formed depression as claimed in independent claims 6 and 9. The prior art also fails to teach a method of centering a liquid drop using a formed depression and having a curvature as defined above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

A grammatical correction to claim 6 has been made by the following examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 6, line 4, "first and second" has been replaced with "two". This wording is consistent with the wording used in independent claim 9.
